

## Direct BioBedding® – Forest Friendly Animal Bedding

We supply premium purpose designed Direct BioBedding to poultry growers, cattle yards, dairies, and horse facilities everyday

### Direct BioBedding® has the following characteristics:

- ✔ Made from fully recycled kiln dried white softwood, saving new trees from the sawmill and thus helping the environment... Direct BioBedding truly is "Forest Friendly Animal Bedding"
- ✔ Natural pine fresh scent
- ✔ Goes through a multiple shredding process which opens up the fibres for maximum ammonia absorption
- ✔ Passes through a complex 3 stage screening system
- ✔ Mega air driven dust extraction vacuum system, not just mechanical screening
- ✔ Less hock burn, chest blister and mould based disease in poultry due to its dryness compared to moist shavings or saw dust and thus helps product higher quality birds at better weights
- ✔ Can use a lot less per square metre and is much better suited to multiple batches
- ✔ Very friable with much less caking and capping
- ✔ Always dry saving growers big money on gas and electricity
- ✔ Pre delivery it is always stored inside our factory in stainless steel lined bays for quality, dryness and vermin proofing
- ✔ Delivered in bulk in our purpose designed walking floor trucks in 40 or 110 cubic metre loads
- ✔ Also available in 200kg bulka bags & small 10kg top up bags
- ✔ Our delivery trucks are only ever used for delivery of Direct BioBedding, never for used litter – and we guarantee it!
- ✔ For your further bio security every load comes with a signed Direct BioBedding guarantee as to the quality of the load. Importantly, they also satisfy the RSPCA!

Direct BioBedding – Forest Friendly Animal Bedding

Happy and Healthy Chicks On Direct BioBedding

Our 40 m<sup>3</sup>, Low height (2.7m) Walking Floor – Our Small "Direct BioBedding" Delivery Truck

Tri-Axle Semi "Direct BioBedding" Delivery Truck

Direct BioBedding Undergoing A Regular Quality Control Check

- ✔ With curly shavings and rice hulls you pay for a large percentage of air! BioBedding has twice the density for maximum ammonia absorption and effectiveness
- ✔ Randomly sampled and scientifically tested
- ✔ Won't blow around like shavings and rice hulls
- ✔ Fast delivery and top service
- ✔ Developed in consultation with farmers and industry experts to the EPA approved specification
- ✔ Non seasonal – supply available all year round!
- ✔ Can be used in spreaders
- ✔ Reduced need for top up

Used litter containing Direct BioBedding is readily recycled back into the environment onto fields, gardens, turf farms and market gardens. Choose from Premium Blend, Premium Original, or Premium Fine. Most users nominate our Premium Blend to get the best of both worlds.

Direct BioBedding Premium Grade – dust extracted and ranging mostly in approx size 3 to 8mm

Direct BioBedding Fine Grade – dust extracted and ranging mostly in approx size 2 to 4mm

Waste softwood ready for shredding

Pre-shred softwood flake awaiting re-shredding into Direct BioBedding
